

Temporary identification system

y151T Seal

Highlights

- Print, cut & seal in one step
- 11 colors of ThermoSeal tape
- User Friendly
- Easy Maintenance
- No solvents required

Speeds marking in...helps prevent sorting errors! Reduces sorting labor.

Color coded tags make sorting shirts a simple task. Shirts can be sorted into movable transporters or numbered rail clips right off the folder or finishing unit, reducing the amount of labor required. Labels print clearly, adhere firmly, and yet peel off easily. Label length adjusts automatically to match number of characters.

Store... day... week... lot... bundle

The Thermo-Seal® tag gives positive lot control to prevent costly, time consuming mix-ups and lost garments. Large, clearly printed letters and numerals make sorting easier. Four to twelve characters are set in seconds for any code. The tape in eleven solid colors allows you to combine color code with your printed code to make sorting even easier and faster.

Thermo-Seal® taperolls

The tape specifically made for all Thermo-Seal® temporary marking machines. The eleven colors are orange, yellow, red, gray, lavender, white, green, pink, blue, gold and tan. Adheres to cottons, poly/cotton blends, loose weave polyester and wools.

Thermo-Flags® tags

Where Thermo-Seal® tape can't be applied directly to the garment, apply tape to a Thermo-Flags® and staple or pin to garment. White only.

Ink ribbon cartridge # RC2410-15

Black indelible ink ribbon. Prints sharply and cleanly on Thermo-Seal® taperolls. Print stays clear and legible through laundering, dry cleaning and finishing operations. The ink cartridge is very simple to snap into place.

Specifications

Electronic Requirements:	6.3 Amps @ 115 Volts or 3.1 Amps @ 230 Volts
Operating Air Pressure:	60 PSI or 4.0 Bars
Machine height x width x depth:	15.3" x 21.9" x 17.1" (389 mm x 556.5 mm x 432.5 mm)
Machine weight:	40.7 LBS (18.5 Kg)
CE certified	
Menu offers 3 languages: English, Dutch and Spanish
